The upside is, Google can also be reached from other Macs or PCs that are not part of this setup.. I know this all seems very complicated, but it works! If you've been looking for an Outlook/iPhone sync solution, give it a try and post your experiences (or alternative solutions) here.. Notes: If you want to switch identities frequently, you can leave the Database Utility open while Outlook is open.

[ robg adds: I haven't tested this one ] Before MobileMe debuted, we had to set up a Mac-using executive and his two Windows Outlook-using assistants with calendar sharing.. The executive already sync'd his iPhone calendar to his Macbook Pro So we set up a Google calendar.. Switch the identity used by Outlook Close Outlook Open the Microsoft Database Utility.. This program also runs every 15 minutes (The downside is that this program costs a whopping \$65.

We installed a Windows app called SyncMyCal on the PCs Now all three can update their personal calendars, sync certain calendar or all data to Google, and use Google as a bridge between them.. It's a termination offense to sync my corporate outlook calendar with an external server.. Now I've found a way!Part 1: MobileMe, iCal, and iPhone: At home, I sync my iPhone calendar with iCal on my Mac.. My passport reformat for mac For a while now, I have been looking for a way to keep my iPhone calendar in sync with my work Microsoft Outlook calendar.. We installed Spanning Sync on his Mac (and in addition to the other comments about what you get for the price, you can use one Spanning Sync license to sync multiple Macs to the same Google calendar). ## Import and Export Wizard

The image shows a screenshot of the 'Import and Export Wizard' dialog box. On the left, there is a blue graphic with a white arrow pointing right. The main area is titled 'Choose an action to perform:' and contains a list of options. The option 'Import an iCalendar (.ics) or vCalendar file (.vcs)' is highlighted with a blue background and a yellow border. Below the list is a 'Description' field containing the text: 'Import information from an iCalendar or vCalendar file to the Calendar folder.' At the bottom, there are three buttons: '< Back', 'Next >', and 'Cancel'.

Choose an action to perform:

- Export RSS Feeds to an OPML file
- Export to a file
- Import a VCARD file (.vcf)
- Import an iCalendar (.ics) or vCalendar file (.vcs)**
- Import from another program or file
- Import RSS Feeds from an OPML file
- Import RSS Feeds from the Common Feed List

Description

Import information from an iCalendar or vCalendar file to the Calendar folder.

Dec 20, 2011 - hi to all, i had install office for mac 2011 on my iMac and i like to sync ical with outlook calendar, the way from outlook to ical is fine but a new.. This program also syncs every 15 minutes Of course, these syncs aren't immediate, but now you don't have to enter your calendar items two or three times.. This is a topic of great interest to me I've evaluated a similar setup I've run into two issues: 1. [Mac Pro Cleaner Removal Tools](#)
